

Tevin Dirks

About Me

I am a driven individual who embarked on a transformative journey from the hospitality industry to the realm of technology. With six years of experience in hospitality under my belt, I made the bold decision to pursue my passion for coding. I embarked on a part-time study journey, financing my own coding bootcamp to transition into a full stack web developer role. Prior to this, I studied sport and fitness at Northlink College, earning a diploma in the field. Currently employed as a junior web developer in fintech, I thrive on challenges, embracing discomfort as a catalyst for growth. Despite being in the early stages of my career, my tenacity shines through as I fearlessly tackle highly complex tasks, always striving to grasp the fundamentals.

Hands On Experience

During my tenure, I spearheaded the development of a Vue.js replication of our company's WordPress website, employing Vuetify for comprehensive styling and incorporating external dependencies like axios for streamlined sign-up form requests. This project culminated in successful deployment to Firebase via GitHub and subsequently to Google Cloud Platform (GCP). Concurrently, I led a separate initiative to construct an internal service desk and ticketing system using Vue.js for the frontend, Node.js for backend functionality, and initially MySQL for data management. However, due to specific deployment requirements, we transitioned to MongoDB, a non-relational database. Despite the primary WordPress site remaining operational, the Vue.js site underwent rigorous testing. Additionally, I undertook responsibilities such as managing internal reporting via Google Sheets, executing mass payments across various systems, and orchestrating API calls with XML and JSON responses. These experiences underscore my adeptness in frontend and backend development, as well as my proficiency in navigating diverse technological landscapes to meet organizational needs.

Education/Timeline

Bergvliet High School – 2008–2012

Pursuing a semi-pro football career playing 4th tier (SAB League) – 2013

Diploma in Sports Fitness – Northlink College 2014–2016

Certification in Music Production using FL studio – SAE Institute 2017

Full Stack Web Developer – Hyperion Development 2019–2020

Experience

Hussar Grill Waitron – 2015–2021

Pro Fintech Junior Web Developer (6 month contract) – June 2021 – December 2021

Pro Fintech Junior Web Developer (permanent) January 2022 – present

Technologies

HTML

CSS
Javascript/Typescript
Node.js
Express.js
Vue.js (professionally)
MySQL
MongoDB
